2020 BASKETBALL HALL OF FAME COMMEMORATIVE COIN PROGRAM

THE GAME OF BASKETBALL

The bouncing of the ball. The satisfying swish of a perfect shot. The blaring of the buzzer and the roar of the crowd. The game of basketball has excited players and fans for more than 125 years. This fast-paced game was invented on December 21, 1891, by Dr. James Naismith. From its humble roots in a gymnasium, the game has grown into a global phenomenon, embraced by players and fans around the world. Today, the **Naismith Memorial Basketball Hall of Fame** carries on Naismith's vision for his game of "basket ball."

OBVERSE (HEADS):

The design portrays the intense, hands-on action of the game—the constant struggle for possession of the ball and the skill required to overcome the opponent and put the ball through the hoop. The design features three different figures all reaching for the ball in unison, suggesting how the sport has brought together millions of diverse people around the world through a simple, universal, and unifying athletic experience. Their arms are intentionally elongated, just slightly, to emphasize the full exertion of physical and mental effort required to excel in the game. The rim and net are presented as subtle background elements to complement the primary figures. Inscriptions are "LIBERTY," "IN GOD WE TRUST," and "2020."

REVERSE (TAILS):

This design depicts a basketball about to pass through the net, with the inscriptions "UNITED STATES OF AMERICA" and "E PLURIBUS UNUM." Additional inscriptions include "FIVE DOLLARS" on the gold coin, "ONE DOLLAR" on the silver dollar, and "HALF DOLLAR" on the clad coin.

**2020 holiday collection
and gift guide**

Dear Friends and Collectors:

On behalf of the United States Mint, I am delighted to present our 2020 Holiday Collection and Gift Guide. Its pages are filled with shining examples of the coin-maker's craft. In this year of uncertainty and hardship for so many, we hope these gifts and their accompanying images evoke cherished seasonal memories of "hearth and home."

The Mint acted quickly and decisively during the early phases of the pandemic to implement measures to mitigate the risk of employee exposure to COVID-19. Throughout this unprecedented public health challenge, the Mint has continued to meet its essential mission of manufacturing coins to facilitate national commerce and support our Nation's economy.

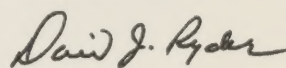

We also remain just as mindful of our commitment to you—our numismatic customers and collectors. Despite some necessary adjustments, product delays, and postponements, you'll find here a wealth of collectibles for experienced numismatists, novice collectors, and those looking for unique and meaningful gifts that celebrate the American experience. The quality and craftsmanship of the United States Mint—even during a national crisis—are on full display throughout these pages.

Whether you're a seasoned or beginning collector, looking for a unique gift for a loved one or friend, or are simply curious and want to learn more about the Mint and what we have to offer, our 2020 Holiday Collection and Gift Guide has something for you. It beautifully showcases familiar and new products that reflect our finest work. From the intrinsic value of our platinum, gold, palladium, and silver **American Eagle Coins**, to the artistic mastery represented by the final series of **America the Beautiful Quarters® Program** coins (the final quarter, with a design featuring Alabama's Tuskegee Airmen National Historic Site, will be released early in 2021), and the second full year of the **American Innovation™ \$1 Coin** series—there is something here for you and everyone on your holiday gift list.

Its pages also feature our popular annual proof and silver proof coin sets (accompanied this year by special complementary nickels with a "W" mint mark), uncirculated sets, Presidential Portraits, special occasion sets, and much more. Our two commemorative coin programs this year will be especially appealing to sports fans and history buffs. These are the **curved Basketball Hall of Fame Commemorative Coins**—including the **first-ever Mint colorized coins** (silver dollar and clad half dollar)—and **Women's Suffrage Centennial Silver Dollars**. You'll also find **End of World War II 75th Anniversary** and **Mayflower 400th Anniversary Coins and Medals**. The two historic Mayflower sets were produced in partnership with The Royal Mint of the United Kingdom. **Presidential \$1 and First Spouse Gold Coins** are back to honor **George H.W. Bush and First Lady Barbara Bush**. And to add a special touch to the holidays, our **winter wonderland-themed ornaments** are designed for you, your kids, or anyone else you hold dear.

To our returning customers, many thanks for your continued enthusiasm and support. And a warm welcome to those who may be ordering genuine U.S. Mint coins and medals for the first time. We wish you and those you hold dear a safe, peaceful, and healthy season filled with wonder and joy.

Sincerely,

David J. Ryder
Director
United States Mint

VOTES FOR WOMEN

The 2020 Women's Suffrage Centennial Silver Dollar celebrates the milestone 100th anniversary of the 19th Amendment's ratification with a distinctive silver dollar marking this signature achievement in our Nation's history. The inspirational coin designs not only pay homage to its adoption, they also honor the many pioneers, activists, and foot soldiers in the movement who fought bravely and tenaciously for decades to make it a reality. The designs were expertly crafted and engraved by women artists.

The coin's obverse (heads) design features overlapping profiles of three distinct women. Each woman is wearing a different type of hat to symbolize the many decades the suffrage movement spanned. The figure in the foreground is wearing a cloche hat with an art deco pattern and a button with the year of the 19th Amendment's ratification. Its reverse (tails) design shows "2020" being dropped into a ballot box, styled with art deco elements to indicate the artistic style of the era.

Surcharges in the amount of \$10 for each silver dollar sold are authorized to be paid to the Smithsonian Institution's American Women's History Initiative for research and creation of exhibits and programs to highlight the history and impact of women in the U.S. These coins are only available this year, so order now!

2020 COLLECTOR'S GUIDE

Dear Friends and Collectors:

On behalf of the United States Mint, I am delighted to present our 2020 Collector's Guide! Its pages beautifully showcase some of our exquisite coins, medals, and sets that collectors and gift-givers alike will enjoy.

When I returned to the Mint as its 39th Director a few years ago, I knew my professional career had come full circle as I experienced more than a few "déjà vu" moments. While much had changed since I had served as 34th Director a quarter century earlier, most of the important things remained the same and were familiar. The United States Mint still stood strong as the world's largest—the authentic, original source for genuine American coins and medals. I truly feel blessed to have the opportunity to return to the Mint.

I was quickly reminded of why we use the term "mint condition" for something that is the best—it's a testament to our rich history dating back to 1792, our dedicated employees across the Nation, and distinguished coins and medals that tell our story and set the standard for quality.

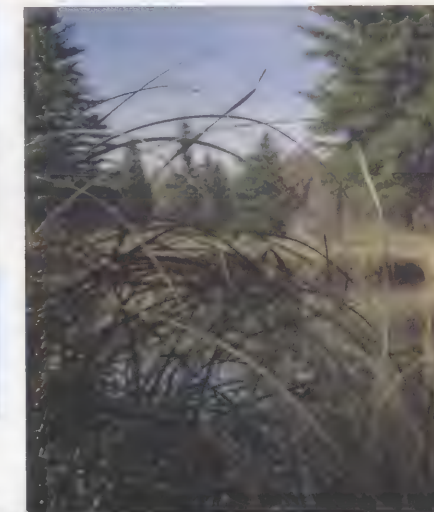

Whether you're a seasoned or beginning collector, looking for a unique gift for a loved one or friend, or are simply curious and want to learn more about the Mint and what we have to offer, our 2020 Collector's Guide has something for you. Its pages feature our popular annual proof and uncirculated coin sets (accompanied this year by special complimentary nickels with a "W" mint mark), special occasion sets, a variety of precious metal coins, Basketball Hall of Fame Commemorative Coins, and much more.

I believe the Mint reflects the very best of our Nation. Our motto, "Connecting America through Coins," has real meaning, as the designs, themes, and subjects depicted on our coinage and medals tell the stories that shaped America. We hope our 2020 Collector's Guide will inspire you to expand your own collection or to introduce your friends and loved ones to a new adventure.

Sincerely,

David J. Ryder
Director
United States Mint

2020 BASKETBALL HALL OF FAME 60TH ANNIVERSARY COMMEMORATIVE COIN PROGRAM

The bouncing of the ball. The satisfying swish of a perfect shot.
The blaring of the buzzer and roar of the crowds.

The game of basketball has excited players and fans for more than 125 years. This fast-paced game was invented on December 21, 1891, by Dr. James Naismith. From its humble roots in a gymnasium, the game has grown into a global phenomenon, embraced by players and fans around the world. Today, the Naismith Memorial Basketball Hall of Fame carries on Naismith's vision for his game of "basket ball."

All of the coins in this three-coin program (gold \$5 coin, silver dollar, and clad half dollar) share common designs and are curved.

Celebrate the game and the 60th anniversary of the Naismith Memorial Basketball Hall of Fame with the purchase of a Basketball Hall of Fame Commemorative Coin for your own collection, a special player, or dedicated fan.

Don't miss your shot—join us in recognizing one of America's national treasures!

Coming later this year— colorized coins! These curved coins have color applied to some of their reverse design elements.

Surcharges from the sale of these coins are authorized to be paid to the Naismith Memorial Basketball Hall of Fame (a 501(c)(3) nonprofit organization) to fund an endowment that will enable its increased operations and educational programming.
